

Sarah Williams | Prospective grad student

Basic Info

- 22 year old female
- First Generation college student
- Pursuing bachelor's degree in Civil Engineering from Cal State

Story

Background: Sarah is senior studying Civil Engineering at California State University. She is the first in her family to attend college and she is hoping to attend graduate school soon.

Goals: Sarah is hoping to learn more about incorporating DAS data to help her in her research on earthquake engineering. She isn't the most tech savvy so she wants to find a site that could easily displays data without coding.

Challenges: One of her issues is that the available resources out are every difficult to use and understand for people who are not already familiar with it. Since she is not expert on programming, its hard for her to use raw data that some of the existing websites have.
